GOOD NEWS!

Information has just come to hand that the Railway Express Agency is working on a new commodity tariff on bulbs. This is expected to become effective in time to benefit all shipping during the coming season. It is reported that rates will be closely competitive with L.C.L. rail freight, with the usual fast Express service.

TO OUR JOBBER AND DEALER FRIENDS

The Gladiolus crop for the current season has reached that stage where it is possible to very nearly estimate the quality, and quantity of the bulbs that will be produced.

All of the bulbs offered in this list will conform completely with our usual high quality of stock as supplied in the past.

Our stock has always featured fully developed, high crown bulbs; grown especially to meet the requirements of the most critical retail or trade buyer.

All stock offered is strictly true to name, and all grading is done in accordance with A. G. S. standards.

Shipment can be made any time after December 1, 1932, so book your order early so we can give you our best service, while stocks are complete.

CONDITIONS OF SALE

Cash with order, or 25% cash with order will hold order for any shipping date; balance to be C. O. D. unless otherwise arranged.

Prices are all made F. O. B. Grants Pass, Oregon. Shipment can be made by heater freight, express or parcel post. Please state method desired when ordering. We recommend express on all but large shipments, and unless otherwise instructed will so ship all orders.

All offerings made subject to prior sale and crop conditions.
